

CHRISP STREET PRACTICE AREA – from May 2016

We only register new patients who live in the inner boundary (see solid black line).

If you are an existing patient and move from the inner boundary to an address in the outer area – within the dotted lines – we will ask if you wish to remain on the practice list and keep you on our list if you agree.

Patients who move completely out of area must register with a new GP Practice.

These changes are agreed with NHS England and form part of our contract with the NHS.

Current catchment area where new patients may register

Expanded catchment area – current patients residing in the catchment area who move within the red dotted line may be retained on our Practice list
